

Sinclair has announced plans to force local television stations it owns and operates to preempt regular network broadcasts and devote one hour to an anti-John Kerry documentary. Broadcasting this kind of propaganda within 60 days before the election is clearly against the Electioneering Restrictions and Disclosure Under the Bipartisan Campaign Reform (BCRA) Act. It is an illegal campaign contribution.

I hope their attempt to evade our election laws is as offensive to you as it is to my family.

Please let them know the US government will enforce its laws and not allow our democracy to be subverted. Don't renew their broadcast license on our public airwaves if they continue this kind of illegal behavior.

Thank you.
